APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the place of use of the waters of an underground source as heretofore granted under Permit 21175, Certificate 6210 is issued subject to the terms and conditions imposed in said Permit 21175, Certificate 6210 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The total combined duty of water under Permits 60576, 60607, 60608, 60609, 60610, 60611, 60612, 60613, 60614 and 60615 shall not exceed 2086.43 million gallons annually.

This permit is subject to the "Memorandum of Understanding Regarding Water Service" dated August 25, 1994, between Gardnerville Town Water Company and The Town of Minden.
(CONTINUED ON PAGE 2)

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 2.27 cubic feet per second, but not to exceed 535.5 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before September 20, 1996

Proof of completion of work shall be filed before October 20, 1996

Application of water to beneficial use shall be made on or before September 20, 2005

Proof of the application of water to beneficial use shall be filed on or before October 20, 2005

Map in support of proof of beneficial use shall be filed on or before N/A

Question 14 - Estimated Time to Construct Works

The Carson Valley Comprehensive Water Plan indicates that all of the water rights owned by the Gardnerville Town Water Company will be needed to meet the future municipal water system demands in Carson Valley when long-term development capacity is reached (Table 6 on Page 30). The Water Plan Report in Table 4 on Page 23 indicates that when the population of Carson Valley reaches approximately 82,000, the present planned land uses in the Valley will be "built-out". Therefore, the estimated time to construct all of the improvements to put the water to full beneficial use will coincide with the aforementioned population level of development in Carson Valley and Extensions of Time will be required until this growth is reached as provided for under NRS 533.380.

Question 15

The purpose of this Application is to change the Place of Use to cover the entire Carson Valley to allow the use of the Water Company's water rights to meet future municipal water demands in the communities shown in Table 6 on Page 30 of the Carson Valley Comprehensive Water Plan.
